

TWENTY-FIRST YEAR

NO. 32

GLEICHEN, ALBERTA, WEDNESDAY, NOVEMBER 2, 1927

SUBSCRIPTION \$2.00 PER YEAR

## Capital News Bulletin

Issued by Alberta Publicity Committee, Edmonton.

Olaf E. Larsen of Blackfalds, Alberta, and R. G. Goff of Victoria, B.C., were here at the International Fox and Fur Exhibition during the past week at Victoria. This event which was held under the auspices of the Canadian Fur and Fox Breeders' Association attracted entries of live animals and pelts from many sections of Canada and the United States.

The test salt well being drilled at McMurtry under the direction of the provincial government has reached a depth of over 200 feet, according to the report of the engineers in charge of the project. It is estimated that a depth of about 60 feet is required to bring in the salt in any quantity and it is the intention to proceed with drilling until the salt vein is reached.

The last birds of wild life in the province which have found sanctuary in the valley of the Big Branch River, the last great prairie game animal in other parts of Alberta, are now rapidly increasing and spreading northward, according to reports from that district. Some large herds have been seen in the area and male appear to be doing well in their new home which is considerably farther north than their usual habitat.

Swallows along the E. D. and B. C. Railway in Northern Alberta are expected to turn up again after the 30,000 miles of feeders during the season, when it is estimated by Edmonton dealers. In addition, other birds in the section of the province north of Red Deer will cut over 100,000 miles of feeders and these will commence early in November and this work will provide work for some 3,000 men and from 750 to 1,000 teams.

The annual meeting of Alberta Wheat Pool delegates, which is to be held in Calgary on Wednesday, November 22, An invitation has been sent to all growers in British Columbia to be represented at this gathering. The meeting of the local committees of farmers of the coast province will be held in Vancouver on November 21, and the British Columbia delegation will be present. A delegate who wishes to bring his wife to the meeting must reach the pool headquarters in Calgary not later than November 5.

Alberta will be represented at the interprovincial conference which opens on November 22nd by Premier Brownie, Hon. George George Minister of Agriculture and Fisheries; Hon. J. H. Morrison, Provincial Auditor; and H. English of the Department of Municipal Affairs.

Among the questions which will come up for discussion will be the taxes to be levied on the review of federal subsidies to the provinces, a reconsideration of the fields of taxation as between the Dominion and the provinces, the question of rail development in the Peace River District, the renewal of federal aid to highway construction, the proposed police administration in the provinces and a survey of transportation, marketing and storage problems. It is expected that the new committee will be presented with a memorandum from the Dominion a solution for many of these important problems may be reached.

The High River air station will be abandoned for the winter and the planes which have been based there will be transferred to other points in the Dominion. Capt. R. Collis, officer commanding the station is being moved to Ottawa for the

## Hot Football Draw Game

Following up their recent draw of 6-0, the Strathmore and Gleicher football clubs played a return match at Gleicher ground to another draw, scoring one goal on each side making it an even game of 1 against 1. Theirs was some real hard kicking and rough play, but both sides were pretty well out after playing ten minutes overtime without goal. John McGarrett, coach of the Gleicher team, said he had never seen such a game before. The Strathmore, doing some fine fighting and goaling while among the Gleicher boys came Brown, Tom Maunz, and Jim McLean, while the others in some pretty tight corners at times. This second game to tie the series made the Gleicher team leaders, probably on November 9th it is Strathmore. Both teams were scores in the first period after which no more goals occurred. At the end of the game there was plenty of room when the five minute overtime session was over, and the score was still 1-1.

This means you. It is of vital importance that every Gleicher home is represented at this meeting.

## CITIZENS MEETING

### EXTRAORDINARY IMPORTANCE

TUESDAY, NOVEMBER 8TH

A citizens' meeting of extraordinary importance will be held in Gleichen Community Hall at 8 o'clock on Tuesday evening, November 8th. The business men in particular, ladies in general, Town Council, the Board of Trade, the members of the various lodges and organizations and the High School children are invited to be present.

This means you.

It is of vital importance that every Gleicher home is represented at this meeting.

## Armistice Celebration

DINNER AND DANCE NOV. 11TH

MONUMENT DECORATED 11 A.M.

A meeting was held in the Community Hall Club Room Tuesday evening under the chairmanship of Captain G. H. Gooderham for the celebration of the ninth anniversary of the signing of the Armistice. It was decided that this year's celebration would take the form of a dinner at 7 o'clock p.m. followed by a dance in the hall room followed by a distance march which the public, commencing at 8 o'clock. The dinner is to be opened for all returned men in the district. Admission tickets for the dinner will be \$1.50 which will include admission to the dance. Dance tickets will cost \$1.00 each and extra lady tickets \$1.50. The committees were appointed as follows: Entertainment Committee, G. H. Gooderham; Dr. Armstrong and A. G. B. Lewis; Dance Committee, R. M. Stabbick and G. Lewis; Luncheon; decoration committee, S. Reid and Jack Lunan; decoration committee, W. Varnell; George Morris and Mrs. Billie Major Lewis was appointed to act as toastmaster.

The annual decoration of the monument will take place as usual at 11 o'clock a.m. but the meeting decided that the parade should be as large as possible and not confined to returned soldiers as in previous years. This year the school children will be asked to march in the parade under the supervision of their teachers and that the O. C. 22nd Field Battery be asked to have the battery take part in the parade. Milk Wade has consented to take charge of the poppy selling campaign with the assistance of the C. G. I. T. as last year.

## POPPY DAY

The 11th day of November brings the annual Poppy Day, the day of the Armistice, bringing to an end the four years of slaughter and agony which drenched the world. We call this day "Poppy Day" because it is the day when thoughts to the many brave souls who went forth to the greatest adventure in the history of man, as sacrifice on the altar of a thousand causes, and to the building of a better and more tolerant world.

We call it "Poppy Day" because it is the day when we go to grieve the spirits of our fallen, to comfort their families. By wearing a poppy on Armistice Day we serve a double purpose; rememberance of the dead and a reminder for the living.

Canada expects every man, woman and child to wear a poppy that day.

Our disabled, those through their service and wounds, are unsuited to take their place in the professional labour market, and additional effort is pleasant and helpful form of alternative employment.

The national campaign is carried on by the Canadian Legion, the Canadian Legion of the British Empire Service League. The proceeds of the sales are used for the benefit of the disabled veterans and their families. By wearing a poppy on Armistice Day we serve a double purpose; rememberance of the dead and a reminder for the living.

Some newspapers are making it quite fashionable to wear a poppy in their hats, and when business men get their job printing done, those who practice what they preach is "Buying at Home," are very pleased to say so.

The difference between a success and a failure is that the former lives on last month's income and the latter on last month's expenses. If you want to buy or sell anything try to ad. in the cell under Miscellaneous. They seldom fail to make good.

## Motor Tourists Are Advertisers

Alberta this year has been advertised far and wide by information which has been supplied visiting tourists during the summer months. Through the offices of the Alberta Motor Association, and by assistance given to citizens of the province who have toured other parts of Canada and possibly all sections of the United States.

Accurate figures as to the number of motorists served this season in the province by the A. M. A. have not been obtained for this year, but as an indication of the extent of the national demand for such service is given in estimates compiled by the American Automobile Association, the A. M. A. is closely affiliated. In the United States and Canada it is certain that more than 2,000,000 tourists travel annually through the auto clubs enlisted under the emblem of the three A's.

The demand for touring services and auto clubs supply it through the auto clubs is in direct contrast to conditions existing a few years ago when so many individual motor clubs flourished and could not be organized to meet the growing demand for such service. The greatest value is greatest and most satisfactory when available on a general and comprehensive basis.

It is the aim of the Alberta Motor Association to expand and extend in every possible way the touring service within the province and link it with the national and international associations and international organization, with ever broadening scale, overseas through co-operative association with European auto clubs. The maintenance of motorizing services under the A. M. A. and affiliated clubs, solves the problem of tourism for tourists who travel in the United States or abroad. Nowhere need a member of the A. M. A. feel himself a stranger in a strange land. He needs only to find his credit in the Alberta Motor Association and nation-wide and international benefits and services are immediately placed at his disposal.

## TOWN AND DISTRICT

Doug Young left last week for Kitchener, Ontario, where he is to play professional hockey. Doug will also make Gleichen his home Saturday evening.

W. Sutermeister had a lot of wagon parts hauled down town. Hallowell and J. Hollinger's wagon and hay rack soon followed. Bill and Jake were once kids themselves.

Saturday Gerald Robinson lost the end of his thumb when his broach was trying to start a gasoline engine. Gerald's thumb slipped into the cog of the name block.

The annual meeting of the Meadowbrook Community Hall Assoc. will be held in Meadowbrook Hall on Friday, November 11, commencing at 8 p.m.

## WOHLO GROUP C.G.I.T.

The Wohlo's held their meeting at the home of Mrs. Riddell on Tuesday week.

The meeting was called to order by President Olive Holland, with two members present. The minutes of last meeting were read and approved. The treasurer reported that the Wohlo's had paid \$100 to the Royal Canadian Legion on October 28th in the Community Hall club room which was kindly granted to us by Mr. Beach.

Refreshment, decoration and program committees were appointed. The business part of the meeting will be at the home of Mrs. J. P. McLean, Mrs. J. J. Desjardins and Ellis Robinson took the devotional period and Marjorie McIntyre will take charge of it at the next meeting.

A luncheon was served and the Wohlo's will be entertained by Ruthie McLean and Yvonne St. Jean which everyone enjoyed. All joined heartily in singing "For she's a Jolly Good Fellow," before leaving for fresh meat.

Press Reporter—E. Robinson

## HOW FAR ABOVE SEA LEVEL CAN LIFE EXIST

Practically all life is below the four-mile level. The highest point to which a bird can fly is five miles. The Condor, the mightiest bird known, has been known above the summit of the Andes at an altitude of five miles. Small birds and insects carried up by strong winds have been found above two or three or four miles. The greatest height attained by a mountain climber is five thousand feet above sea level. It is very difficult. No man has risen in an airplane to seven and one-half miles. It is necessary to carry oxygen tanks. It is a great physical suffering at these extreme heights.

The Call from now to Dec. 31, 1928 only \$2.

## HOW DO WE HEAR

Just like a piano, the ear drum is stretched tightly over the eardrum, similar to a drum head. Sound waves in the air strike against the ear drum and cause it to vibrate back and forth very rapidly. Directly beneath and touching the ear drum is a set of three small bones connected to the sac, that is filled with a liquid substance.

The ends of the nerves of hearing are embedded in this bag and spread out into the liquid, where they pass on the vibrations and carry the sense of sound, or hearing to the brain.

What is a bone without a piston?

A bone without a piston is no bone at all. It is a kind of dream—a rendezvous of bedbugs, and a hideous place to live in. It is blind ignorance of what the world is doing. It is inhabited by a class who do not know who is president or who is prime minister. It is a place where you find out that a thing has happened long after everyone else has forgotten it. The people group up in bags and when the wife finds herself finally finds concealment in darkness, and hugging a pipe loaded with insects and a mouse clinging to her. She lives because he can't die, and he is too lazy to kill himself. He goes out on cleaning days, and goes to bed at night. It is a life, but not a great grandfather voter for On Thursday, November 17th T. H. Beach will sell by public auction Watt-Ridder's horses, farm machinery, etc. He is not giving, but is asking for bids to use tract power in future and purchasing an entire new outfit.

Hallowell's plan off nicely in Gleichen with usual parties and a number of enjoyable parties. No great damage is reported. Of course the boys and girls had fun a plenty but then a boy or girl would not have fun is hardly worth raising them.

## Automobile Accidents

During the Great War the statistic was frequently made that human life appeared to be the cheapest of all commodities. Judging by reports appearing in the news media of the continuing and steadily mounting toll of lives taken in the result of automobile accidents, the old war-time statement would appear to be true today.

Deaths from automobile accidents are reported in vital statistics and by frequent newspaper reports, but the actual number of deaths from automobile accidents is not known. To these fatalities must be added the very large number of persons crippled and maimed for life as result of such accidents. The record is not one that reflects much credit upon our country's record in the field of safety.

Recklessness on the part of a very few of these fatal accidents can be laid at the door of defective construction of automobiles. Car construction has received a high state of efficiency and great care is exercised by all manufacturers in the quality of materials used and in the execution of workmanship to complete the car.

The vast majority of all automobile accidents are the direct result of recklessness on the part of drivers or cars, or open disregard by them of the right of other drivers and lack of respect for the laws and rules of the road.

Many drivers either fail to realize, or deliberately ignore the fact, that in order to have a safe automobile, certain knowledge of its proper use and of the use of safety devices is necessary; greater the knowledge, greater the safety of the car, the greater the danger, and greater the need for the exercise of common sense and caution. Too many drivers, however, because their car is capable of 60, 70, or 75 miles per hour, believe that they can do whatever they please with it, and that they can run over a car, or a cyclist, and which may be comparatively safe on a clear, well-paved highway, is highly dangerous driving on the uneven roads of Western Canada.

Then there is the driver who is continually on the lookout for a thrill, and who seems to labor under the delusion that it is an insult to allow any person to witness his driving.

Again, there is the type, and a numerous type, if he, which refuses to observe the automobile and rules of the road, takes the right-of-way from others entitled to it, and exhibits sheer disregard of everybody else, and, without giving the slightest consideration to the fact that while he may be safe, another is never safe, speeds with impunity, and is a menace to many, including drivers. Many, probably most, drivers give way and relinquish their right to these roadways rather reluctantly, but reluctantly, not reluctantly enough.

Finally, there is the driver who, rather than slow down and possibly wait a few seconds in safety at a railway crossing, or a dangerous curve in the road, or near a sharp turn, may have a second or two only to be killed for his or her mere folly.

Lecturers, road builders, car manufacturers, all are striving to devise ways and means of diminishing cases of accident. Roads are being built wider, with easier curves, less hills, less precipices, less projections, less rocks, and so on, to help us keep to the right of way. Law enforcement officers, who will harm life and limb, not only their own but everyone else's, law officers are seeking to evolve practical headights and other improvements. Manufacturers are exerting their ingenuity in the improvement of brakes and safety appliances. Still the death toll mounted impressively and steadily.

Why? There is only one answer. Because of a desire to boast of the speed of the car, and a desire to prove that the car can travel at unnecessary speed, in a word, to undo something as foolish and reckless as themselves. Men, with harm life and limb, not only their own but everybody else's, law officers are seeking to prove that a man can travel faster than can any other person, not and won't anyone else ever be able to catch him. Keen to return to our homes, and out of our stomachs. Above all, we are in the habit of trying to pass off as heroes our acts of driving.

Open our eyes to the traffic signs and keep our feet on the ground.

**A Motorist's Prayer**

Teach me to drive, through life,

without shuddering into other people's businesses. Preserve my body, that I may not be a burden to myself or to others.

# Girl Flier Rescued After Nearly Completing Flight Across Atlantic

Paris.—Ruth Elder failed by a scant 800 miles of accomplishing the feat of being the first woman to cross the Atlantic by aeroplane.

Sue and her co-pilot, Captain George Haldeman, were forced down on the waters of the Atlantic by a broken oil pipe and were taken aboard the Dutch tanker Barendrecht, which rescued them. Their plane, "The American Girl," was estimated to have travelled 3,000 miles along its 3,800-mile journey.

The plane was destroyed by fire as the ship was attempting to salvage it, the ship reported. The Barendrecht was en route to the Azores.

The first news of the landing and rescue arrived here in a cable message Miss Elder sent to the Paris office of the Associated Press.

Athens, Ala.—"We are safe and no one any worse off," Ruth Elder radioed her mother, Mrs. J. O. Elder.

The message, sent from the tanker Barendrecht, which picked up Miss Elder and her co-pilot, George Haldeman, and relayed by the steamer Bayano, reads:

"We are safe and no one any worse off. Landed by S.S. Barendrecht. Write you plus later. Love, Ruth."

## Employees Can Buy Shares

Sir Alfred Mond To Try Out Co-Operation Plan

London.—Co-operation between employers and employees which is not a new matter in the United States, is about to be tried out here by Sir Alfred Mond with 40,000 employees in his big Imperial Chemical Industries. Sir Alfred's idea is to make a capitalist of every one of his factory hands.

Through his offer the employees can buy Imperial Chemical shares, quoted at 30 shillings, for 27 shillings, six pence. The only restriction is that they do not speculate. He will award free shares to workers on the basis of a man earning \$1,000 annually or less getting a free share for every four purchases. The workers can vote on their stock.

"That will create a direct bond between the company officials and workers," Sir Alfred said. "Industrial peace will not be gained by pleasant talk and nice dinner parties, but by actual contact between the men and employers working out practical schemes."

## May Injure Empire Trade

Change in Australian Tariff Is Viewed With Concern

Auckland, N.Z.—A detriment to the paper trade of Canada as well as to Britain is predicted in the new Australian tariff which removed the duty on large class of printing and writing papers in sheets, thus bringing Canadian and Empire imports into line with the foreign.

Formerly the foreign products paid a 20 per cent ad valorem duty, and in some quarters of the trade the change is viewed with concern as it is felt that a severe blow will be struck at Empire trade. One trader estimates that at least half the trade will go to foreign countries. Another merchant says that several firms have cancelled orders for Empire products and are awaiting events.

## Irish Free State

President Cosgrave Makes Few Changes In His Cabinet

Dublin.—President Cosgrave, re-elected as chief executive of the Irish Free State council in the Dail Eireann, has made few changes in his ministry.

The changes that were made give Hon. Ernest Blythe the postmastership as well as the portfolio of finance minister. Hon. Patrick McGilligan took over the internal affairs ministry in addition to his Ministry of Commerce, while Hon. James Fitzgerald Kenney became Minister of Justice.

After a four-hour debate on the whole Government policy the Dail approved by a vote of 56 to 52, President Cosgrave's cabinet.

## New Rural Mail Routes

Regina.—The necessary authority has been given by the post office department for the establishment of ten additional rural mail routes in the Saskatoon postal division, according to John Charnard, district superintendent of postal service for this area.

One of the new routes which will be known as Saskatoon R.R. No. 5, will go from Saskatoon to Flora.

## Says Baffin Land Habitable For Whites

But Is Not Desirable Place Dr. Livingston Finds

Ottawa.—Baffin Island, although not as pleasant a place of residence for white men as more Southern latitudes, is nevertheless capable of sustaining a vigorous and contented native population. This is an essential point in the report of Dr. L. D. Livingstone who has just returned from 15 months duty as medical officer in the Canadian Arctic Archipelago Dr. Livingstone, who was a member of the staff of each annual expedition to the Canadian Arctic, from 1922 to 1926, examining the natives at the different ports of call, remained in the North at the conclusion of the 1926 patrol and spent the winter of 1926-27, and the spring and summer of this year, in a detailed inspection of the natives in the interior whom it had not been possible to see on his previous annual visit.

The telegram bears the Prime Minister's signature.

## Premier Offers Congratulations

Sends Wire To Hon. R. B. Bennett On His Appointment To Leadership

Ottawa.—Among the first to telegraph congratulations to Hon. R. B. Bennett, K.C., who was selected by the national convention to be leader of the Conservative Party, was the Right Hon. W. L. Mackenzie King, Prime Minister of Canada, and leader of the Liberal Government. The Prime Minister despatched the following wire to Mr. Bennett:

"I have just learned of your selection as leader of the Conservative Party of Canada, and desire to tender to you very hearty congratulations upon the confidence thus expressed in you by the members of your party, and on the distinguished honor which they have conferred upon you."

The telegram bears the Prime Minister's signature.

## MOVE TO SPEED UP IMMIGRATION FROM BRITAIN

Winnipeg.—Adoption of a quota policy in Canada to restrict continental immigration was not regarded as feasible, Hon. Robert Forke, Minister of Immigration and Colonization, told a delegation of the general synod of the Anglican Church, which conferred with him here, but he gave his assurance that his department would do all it could to promote British immigration and to keep control over continental immigration.

The delegation consisted of Archbishop Matheson, the primate of all Canada; Chancellor MacLay, Mr. Justice Denistoun, J. W. E. Armstrong, W. G. Styles, Regina; G. B. Woods, Loftus; H. Reid, Toronto; and Canon Vernon.

A statement issued said:

"Mr. Forke stated that the subject of immigration would occupy an important place on the agenda of the conference between the Dominion and provincial governments in November.

"The minister expressed a desire to meet representatives of the churches and other voluntary organizations interested in immigration to confer with him at Ottawa with a view to full cooperation in securing an increased flow of British settlers for Canada. The minister pointed out the valuable assistance that can be rendered by the churches in developing nominations for British families for land settlement, farm workers and household workers, to receive the assisted passage rate. He mentioned that in the past year more than 5,000 Britons have been thus nominated.

"Mr. Forke told the delegation that the assistance to be offered to enable British bards who make good in Canada as farm workers to take up land of their own will be applicable to boys placed out through the church of England hostels at Winnipeg, Melfort and Edmonton. The department was doing everything possible to develop family settlement schemes along 'somewhat similar lines to the existing 3,000-family scheme.'

"The Archbishop assured Mr. Forke that there had not been on the part of the synod or the church any intention of attacking or embarrassing the Government, nor were they actuated by any ill-feeling towards the Roman Catholic Church."

## Plans For Willingdon's Visit To Washington

Program Being Worked Out By Canadian Legation and State Department

Washington.—The tentative program of entertainment of Lord Willingdon and Lady Willingdon at Washington, December 18, is now being worked out by the Canadian Legation and state department. It will be the first visit a Canadian Governor-General has made to Washington since that of the Duke of Connaught in war years, and the first time Canada's titular head has been entertained in Washington on Canadian territory.

His Excellency will exchange visits with President Coolidge and members of the cabinet and will be given the usual recognition of a representative of royalty.

It is understood that the visit has no special purpose except to establish personal contact between the governor-general and heads of the U.S. government.

On previous occasions the Canadian Governor-General has been a guest at the British embassy. The difference on this occasion will be that he will be able to entertain officially at the Canadian Legation as the representative of Crown in Canada.

## Invited To Deliver Address At Washington

Premier King To Take Part In Dedication Of Memorial

Ottawa.—It is reported here that Premier King has been invited and will deliver an address at the dedication of a memorial in Arlington Cemetery, Washington, to the Canadians who fought in the American Expeditionary Force during the Great War and gave their lives for the common cause.

It has been suggested, and the suggestion is being considered, that the prime minister be escorted by a contingent of Canadian troops at the ceremonies which will take place October 29.

## An Important Agenda

Ottawa.—The premiers of the provinces of Canada will face an important agenda of nearly forty items when they meet here on Nov. 3. The conference of the premiers promises to be the most important of its kind since Confederation, in view of the fact that several constitutional questions will come up for discussion and perhaps action. While the conference will have no actual legislative or administrative authority, its conclusion will be far-reaching, as they will affect the legislative programmes of the future of the nine provincial governments during the next year.

## Comparative Costs

Ottawa.—The average cost of a weekly family budget of 20 staple foods was \$10.35 at the beginning of September, compared with \$10.93 in August, and with \$10.94 in September of last year.

## Premier Offers Congratulations

Sends Wire To Hon. R. B. Bennett On His Appointment To Leadership

Ottawa.—Among the first to telegraph congratulations to Hon. R. B. Bennett, K.C., who was selected by the national convention to be leader of the Conservative Party, was the Right Hon. W. L. Mackenzie King, Prime Minister of Canada, and leader of the Liberal Government. The Prime Minister despatched the following wire to Mr. Bennett:

"I have just learned of your selection as leader of the Conservative Party of Canada, and desire to tender to you very hearty congratulations upon the confidence thus expressed in you by the members of your party, and on the distinguished honor which they have conferred upon you."

The telegram bears the Prime Minister's signature.

## Receives Diploma

Miss Dorothy Moore, daughter of Rev. T. Albert Moore, D.D., and Mrs. Moore, 181 Geoffrey street, Toronto, has been awarded the diploma of the Royal Life Saving Society of London, England. She is physical director of the Calgary Y.W.C.A., and is the first to bring this coveted award to that city.

## Trying To Reach Coast

Mexican Rebel Leaders Being Pursued By Federal Troops

Mexico City.—Pursued through the wild mountain country of western Vera Cruz, the rebel leaders, Arnulfo Gomez and Hector Almada, were believed to be attempting to reach the coast, where passage in a fishing boat or other small craft would put them beyond the reach of the government.

Hot on their trails are scouting parties of federal troops under command of General Gonzales Escobar, who reported that he had dispersed the rebel forces and captured the main body, leaving Gomez and Almada with only about 100 followers.

To guard against the activities of bandits attempting to take advantage of the situation, the government has ordered an adequate escort of federal soldiers for every freight and passenger train.

## Japanese Volcano Erupted

Covered Countryside For Seventy Miles With White Ash

Tokio.—With a thunderous roar, Asama-Yama, active Japanese volcano, erupted recently, emitting an immense volume of thick black smoke and covering the countryside with a white ash.

Farmers at work in the fields were compelled to use umbrellas as a protection from the ashes which fell as far distant from the volcano as Etsu-noma, seventy miles to the east.

(Asama-Yama is about 80 miles northwest of Tokio.)

## Infantile Paralysis Serum

Indianapolis, Ind.—Commercial production of a specific, said to be beneficial in the treatment of infantile paralysis, was announced here by the Eli Lilly Biological laboratories, the concern which first produced insulin as a commercial product. The new serum has been developed in cooperation with Dr. Edward S. Rosenow, head of the division of experimental bacteriology of the Mayo foundation, Rochester, Minn.

Mr. Gorman told the board of education which is trying the suspended superintendent on charges of insubordination.

The entire point of view, he said, was pro-British in these books and he charged there were numerous distortions, and that many vital matters pertaining to the revolutionary war were omitted. Mr. Gorman objected to many quotations, among them the following:

"The Boston tea party was the last straw."

"The colonies added insult to injury."

"The capital of Massachusetts was the seat of vulgar sedition."

"George Washington was a tyrant, despot and the stepfather of his country."

"The Continental Congress was a collection of pettifogging lawyers and mechanics."

Mr. Gorman said he found only one history that was satisfactory, this being "The History of America" by Fish.

"Most of the books," he told the board, "not only admitted but also distorted and minimized the facts hitherto held important in American histories."

In each of them was a clearly defined tendency to endeavor to unite Great Britain and the United States. Mr. Gorman told the board. They showed definite seeds of the Rhodes scholarships, the Carnegie foundation and the English-speaking Union.

## Arrange Exhibits For Agricultural Jubilee

Every Branch Of Federal Department To Be Represented Says Motherwell

Ottawa.—Every branch of the Federal Department of Agriculture will be represented in the celebration of Canada's Agricultural Jubilee, Hon. W. R. Motherwell, Minister of Agriculture, announced, "and they are altogether aside from the provincial, educational and livestock displays which will be part and parcel of this presentation of the greatest of all the Dominion's basic industries."

Alberta, which has had its banner crop year, has notified the minister that its exhibit will comprise grain from this year's yield, and that its display will be most comprehensive. Manitoba and Saskatchewan also will be represented.

The agricultural jubilee will be staged at the Royal Agricultural Winter Fair in Toronto from November 16 to 26.

## Armistice Day

Occasion To Be Marked By A Two Minutes' Silence On Friday Morning

Ottawa.—The following announcement was issued by the Prime Minister here with respect to Armistice Day observance:

"In accordance with arrangements for the observance of Armistice Day, sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two minutes silence at 11 o'clock on Friday morning, the 11th of November, 1927. This is a special observance suggested by His Majesty and is in addition to the regular celebration of the date recognized by the Canadian Parliament on the Monday previous."

## Needs Full Autonomy

Canada's Highest Destiny Rests With In British Commonwealth Says Borden

Winnipeg.—"I yield to no man in my assertion of the fullest autonomy for this great country as a nation within the British Commonwealth of nations," declared Sir Robert Borden, former Prime Minister of Canada, in addressing the Canadian Club here.

The highest destiny of this great Dominion, Sir Robert said, rests with in the British Commonwealth.

The former premier dealt with the influence of the early French settlement in Canada on the development of the Dominion as an integral part of the British Empire.

## U. S. HISTORY BOOKS HELD TO BE PRO-BRITISH

Chicago.—Violently pro-British history books have been used by Chicago school children ever since William McAndrew became principal, John Gorman, former Congressman, told the board of education which is trying the suspended superintendent on charges of insubordination.

Mr. Gorman, who investigated the history book situation for Mayor William Hale Thompson, who made a campaign pledge to oust Mr. McAndrew, particularly criticized the use in the schools of two history books written by David Muzyk.

The entire point of view, he said, was pro-British in these books and he charged there were numerous distortions, and that many vital matters pertaining to the revolutionary war were omitted. Mr. Gorman objected to many quotations, among them the following:

"The Boston tea party was the last straw."

"The colonies added insult to injury."

"The capital of Massachusetts was the seat of vulgar sedition."

"George Washington was a tyrant, despot and the stepfather of his country."

"The Continental Congress was a collection of pettifogging lawyers and mechanics."

Mr. Gorman said he found only one history that was satisfactory, this being "The History of America" by Fish.

"Most of the books," he told the board, "not only admitted but also distorted and minimized the facts hitherto held important in American histories."

In each of them was a clearly defined tendency to endeavor to unite Great Britain and the United States. Mr. Gorman told the board. They showed definite seeds of the Rhodes scholarships, the Carnegie foundation and the English-speaking Union.

## Hon. R. B. Bennett Is Chosen New Leader Of Conservative Party

### Canada As World Influence

Brilliant Future For Dominion Predicted By Noted British Banker

Toronto.—The day is coming when the Dominion of Canada will be a greater influence in the world than Great Britain herself, said Rt. Hon. Reginald McKenna, noted banker, a former first lord of the admiralty and chancellor of the exchequer of Great Britain, in an address to the Canadian Club.

Mr. McKenna outlined the naval policy of

## PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER IX.—Continued.

The door of the common room opened quietly. The light was switched on, and Mrs. Wymuth in dishevelled night clothes stood blinking like an owl at the light. Helm stood at the window facing her, unafraid and calm.

Mrs. Wymuth had a sudden plan. Helm had come back to the scene—she was frightened—now was the time.

"I came the glass to pick up," said Helm, in a whisper. "I hope he is not hurt bad."

"He is dead," said Mrs. Wymuth, in a voice as hollow as an empty church. "Oh, Helm, you have killed him, killed him by your blow. He is lying now cold in death."

Dead! The room swam past Helm, table—chairs—door. Dead! The word beat like a drum with every beat of her heart. Dead! Dead! Dead! Murka! Murka!

The red word danced before her eyes.

"Helm, the police will come for you. I will have to send for them—I will have to tell them you struck him down. Listen, Helm, tell me now who was it sent you for the dope? I'll save you, Helm, even now, if you'll say the name."

Terror had frozen Helm's blood. She knew how awful a thing it was to kill—people who kill are hanged! She locked and unlocked her hands.

"Just say the name, Helm, and I'll save you—just the name."

For the moment Helm could not remove her mind from the terrible present. Then she remembered. She began to speak mechanically.

"It was—" then she stopped abruptly. Her oath—she had sworn!

A deafening clang noise outside drowned her words, the singing scream of a fire-engine that raced by rocking from side to side.

"Who was it, Helm, dear—speak the name—I will save you." Mrs. Wymuth came closer, fawning terribly. "Helm I will tell them you did not mean it. Just tell me who sent you. They will hang you, Helm, and you

## RUN-DOWN AFTER BIRTH OF BABY

Ottawa Woman Made Strong by Taking Lydia E. Pinkham's Vegetable Compound

Ottawa, Ontario.—"I was terribly run-down after the birth of my third baby. I had awful bearing-down pains and was afraid I had serious trouble. I was tired all the time and had no appetite. My sister-in-law is taking Lydia E. Pinkham's Vegetable Compound and cannot praise it too highly and asked me to try it. I have had splendid results and feel fine all the time now. Any one who needs a thorough pick-me-up soon learns from me what to take."—Mrs. RENE PAQUIN, 312 Cumberland Street, Ottawa, Ontario.

## Terrible Backache

Hamilton, Ont.—"After my baby was born I had terrible backache and headaches. I could not do my work and felt tired from the first minute I got up. But worst of all were the pains in my sides when I moved about. I had to sit or lie down for a while afterwards. I could keep my house in order, but many things had to go undone at the time, because of my ailments. I was told by a neighbor to take Lydia E. Pinkham's Vegetable Compound, as she said it would build me up. I was relieved before I had taken the first we bought and have not had any trouble like it since."—Mrs. T. MARKLE, 60 Burton Street, Hamilton, Ontario.

## One Crop Buys Farm

## Remarkable Success Of New Settler On Lethbridge Irrigation Tract

Here is the report of the first new settler on the Lethbridge Northern Irrigation tract to complete harvesting this year: Saunders Bros., of Iron Springs — purchased quarter section there last July paying \$1,894.80, one-third crop to go to Lethbridge Northern as purchase price. Broke land in August. Seeded to spring wheat 110 acres. Harvest concluded, all wheat in elevator. Total crop 4,581 bushels. Grade No. 1. Offer for wheat today \$1.33 per bushel net to owner. L. N. share 1,500 bushels at \$1.33, total value \$2,000; which means that the Lethbridge Northern, if it sells the wheat today, will have to return \$105.20 to Saunders Bros., being the excess which one-third of the crop brought over purchase price of land. This crop was cut and harvested with a combine and the grain graded a perfect No. 1 direct from the machine.

When your tea doesn't taste right the chances are that it is put up in an inferior package. To be sure of getting tea of unvarying good quality, see that the package is rust, dust and damp-proof. In other words, make sure it is Red Rose Tea in the bright, clean, sanitary aluminum package—the finest container ever used for tea. 77

nil for the drug it would have injured her husband's practice, and probably broken his heart. She told herself over and over again that she owed her first duty to him. He did so much for suffering humanity, eased so many people's pain, and did it so generously, that nothing must ever injure him. That was her first duty, to guard her husband.

Eva began to believe in her own wifely devotion. A woman's life should be submerged in her husband's anyway—she really had no life apart from him. She had been wrong to be so independent of dear old Humphrey—he was the safest port in a storm after all. An early Victorian spirit settled down upon her.

In her new-found enthusiasm Eva grew more thoughtful of the Doctor's comfort and more interested in his work. The Doctor, hungry for her favor, was quick to see the little attentions she was bestowing on him, and responded with the eagerness of a faithful dog. Eva, always analytical, and deeply interested in her own mental experiences, began to feel that the episode of Helm was a providential thing, inasmuch as it was bringing her and her husband closer together, and under the stimulus of this belief she redoubled her efforts to please him. She went to church with him; she joined some of the women's societies. Eva was not unmindful of the benefit she would receive socially from these affiliations. It pleased her, too, to find what a flutter of pleasure her coming made in the societies. Any way, it was good policy to make her social position as secure as possible, and if Helm did accuse her it would be easier. Through all of Eva's plans there ran a faded brown dressing gown, his big bare feet spread hideously on the floor.

Helm looked from one to the other, and a dull red came into her eyes—a surging rage, which with difficulty she controlled. She addressed Mrs. Wymuth. "It is you who is one damn liar," she said, in careful English. She walked past them through the open door, switching on the hall light as she passed and making no effort to walk quietly.

Following out her plan to establish a blameless record and an invincible social one, it occurred to Eva that it might be well for her to show an interest in the girls' Friendly Home. It would show to the world that although the young Finnish girl had treated her badly there was no room in her noble heart for resentment. The girls were asked if they thought she had done wrong. Knowing what they were supposed to say they said it—All but Minnie, who began to cry and was sent from the room.

Miss Abbie was delighted when she heard that Mrs. St. John thought of going out to see the girls, and not only that but was going to give a tea for the Home. She reported this to Mrs. Wymuth the Sunday following, when paying her weekly visits to the Home. It was used by Mrs. Wymuth in her turn, not only to show the girls how grateful they should be for food, shelter, clothing, and the blessings of the gospel, but also for kind friends to think of them. Mrs. Wymuth's tongue dripped honey, when she made the announcement to the girls.

(To Be Continued.)

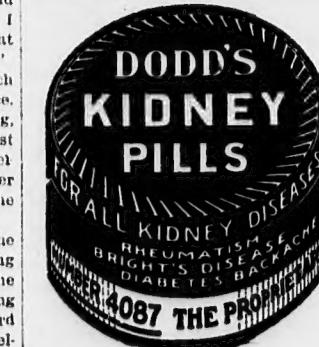

## Term Now Complimentary

## Canada Is Proud To Be Called "Modern Country"

In the fourth quarter of the last century people when they desired to be uncompromisingly called Canada a "wooden country" referring of course to the widespread use of wood in the construction of buildings, bridges, sidewalks, pavements, etc.

Today statesmen and economists, with far different feelings, describe the Dominion as the "softwoods storehouse of the Empire" and urge all Canadians from patriotic as well as from business motives to conserve and utilize this great resource with which a benevolent Providence has endowed the land.

One hundred seismological stations are being built throughout Soviet Russia by the Academy of Science in the hope of being able to forecast earthquakes.

## Caring For the Eskimo

## Natives Of Canadian Arctic Now Under Jurisdiction Of Interior Department

An important change has been made in regard to the Eskimo inhabitants of Canada, namely, their transfer from the care of the Superintendent-General of Indian Affairs, under whom they were placed in 1924, to that of the Commissioner of the North West Territories, Department of the Interior. The Commissioner is responsible for the general management of affairs in the Canadian Arctic, where all our Eskimos live.

Annual expeditions are sent out to the eastern archipelago, and many officers are stationed in the North who can handle Eskimo matters in conjunction with their own duties. A number of these officers speak the Eskimo language and are familiar with conditions of life and travel.

The protection of the wild life of the Arctic with which the welfare of the Eskimos is inseparably bound up is a direct responsibility of the Commissioner, and it is with the view of benefitting the natives that an investigation is being made of the possibility of introducing reindeer into northern Canada. The transfer was made by Order-in-Council on August 31, and is already in effect.

Traffic problems are not new. More than 300 years ago coaches so congested London's narrow streets that the government had to take control.

Mrs. Newbridge—I want a pound of mincemeat, and please take it from a nice young mince.

## Looking Northward

## New Maps Recall Days Of the Early Fur Traders

The early days of the fur traders in Canada are recalled by the publication of two new map sheets of the National Topographic series by the Topographical Survey, Department of the Interior, at Ottawa. These are the provisional editions of the Grand Rapids and The Pas sheets, adjoining each other and showing that portion of Manitoba and a small portion of Saskatchewan lying between latitudes 53 degrees, and 54 degrees, and between longitudes 98 degrees and 102 degrees. These map sheets are published on the scale of four miles to an inch in five colors, and may be obtained from the above office. The department makes a nominal charge of fifty cents each for the maps in folder form or if printed on linen backed paper and twenty-five cents each if on ordinary map paper.

The main topographical features are the Saskatchewan River with its tributaries, its devious passages and its lake expansions, and portion of Lake Winnipegosis and Lake Winnipeg. The early fur traders and explorers in canoes or York boats used the route from Lake Winnipeg via Saskatchewan River to points in the far West or North. Much has been written of the picturesqueness of these early voyages and it is interesting to trace out on these maps some of their routes of travel. The lower valley of the Saskatchewan is largely level country subject to periodic flooding, as may readily be seen from the map by the labyrinth of watercourses shown. This valley is really the delta of the Saskatchewan River before it enters Cedar Lake on its way to Lake Winnipeg and the area has the characteristic delta formation. There are regular water routes followed by steamers and motor boats of shallow draught. In the duck shooting season this district is visited by numerous hunters as it is a feeding ground for all kinds of wild ducks. It is a trapper's paradise as the swamps and marshes swarm with muskrats. Thousands of pelts from these little fur bearers are taken every season, and find their way to the fur auction sales in Montreal or London.

From Cedar Lake to Lake Winnipeg the character of the country is entirely different and the Saskatchewan River flows swiftly with several rapids culminating in the Grand Rapids where there is a fall of about 75 feet. In the early days it was necessary to portage around these rapids but the Hudson's Bay Company now has a tramway from Lake Winnipeg to a point on the river above the Grand Rapids. There is a very great potential source of power in the rapids at this point and no doubt some day this will be developed and utilized.

The information shown on the maps was largely obtained from photographs taken from aeroplanes under the guidance of Dominion Land Surveyors of the Topographical Survey staff acting as navigational officers. Not all of The Pas sheet was photographed, hence there are still blank spaces in the southwestern part of that map. The two map sheets lying directly to the north of those two are also in course of preparation and will be issued soon.

"We were treated courteously by every one we met," reports Miss Cooper. "I was only scared once, and that was by the cannibal chief. He plucked my arm and said 'You belong to me,' and I did not know whether he wanted to marry me or eat me. But we were good friends after that, and he promised me a copra island if I would send him a silk hat and a cutaway coat. I promised I would."

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

Nervous Passenger—"If I was cut off on one side by fire how on earth could I escape from this upper berth?"

Porter—"In dat case, sah, all you'd have to do would be liquify yo'self and ooze through de ventilator."

Minard's Liniment for Lumbago.

An invisible camera has been invented which is operated by radio and in daylight or darkness, so that a thief, merely by his presence in the room, sets it in motion.

A lazy man always believes that a thing of duty is a bore forever.

## Heats Quicker Saves Fuel

Comes to the boil far quicker than other wares. Gets the work done faster—thus saving fuel. The kettle sings sooner when it is SMP Enamel Ware. The vegetables are done on time. You waste no time and you use less fuel. Ask your local hardware merchant for that economical, fuel-saving

## House Moved Eighty Miles

## Built In 14th Century Has Been Re-Erected Near London

A large Tudor house—oak beams, bricks, and tiles—has been moved 80 miles from a Suffolk village and reconstructed on the outskirts of London.

This 14th century building, which has had such an adventure after centuries of peace, formerly stood in the village street at Billdeston, about 10 miles west of Ipswich. After it had been unoccupied some little time its owner approached a firm of estate agents and asked them to sell it for him. The agents suggested that it should be dismantled and reassembled near London, where it was more likely to obtain a good price. The owner agreed, and the demolition began.

Describing how the house was moved, the estate agents who are acting for the owner, said:

"We spent a fortnight making a detailed plan of the house, which was then taken to pieces. Each oak beam was numbered as it was removed. When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box."

## 11 OUT OF 83

Bases ended in death! So a recent Canadian investigation showed. These were not cases of infectious disease—of consumption—or of typhoid! They were cases where a person had sustained some slight injury—a cut, a burn, a wire-prick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted.

When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

## Zam-Buk

## Little Helps For This Week

For we are saved by hope.—Romans viii. 24.

And do not fear to hope. Can poet's brain

More than the Father's heart rich good invent?

Each time we smell the autumn's dying scent

We know the primrose time will come again;

Not more we hope, nor less would soothe our pain.

—George MacDonald.

"We should hope for everything that is good," says the old poet Linus, because there is nothing which may not be hoped for, and nothing but what the gods are able to give us." Hope quickens all the still parts of life, and keeps the mind awake in her most remiss and indolent hours. It gives habitual serenity and good humor; it is a kind of vital heat in the soul that cheers and gladdens her when she does not attend to it. It makes pain easy and labor pleasant.

—Joseph Addison.

## Minard's Liniment for Asthma.

Style Not Included

Bloomer—"I'd like to know why you never make my bed. I've been here three weeks and it hasn't been made yet!"

Ländlady—"If yer thought this was one of them stylish places yer've made a mistake! If yer don't like it, you highbrow, yer can get out!"

## Overcome Their Handicap

## Many Blind People Are Engaged in Delicate Work

At the Royal Mint there is a blind man whose work it is to "ring" the coins and spot those that are faulty by the dull sound they make as they impinge on a metal disc.

This is one of the revelations contained in the latest annual report of the National Institute for the Blind. It tells, also, how others who are blind overcome their handicap. For instance:

One woman assembles parts of electric motors; a girl is employed in photographic envelope-folding; another folds cardboard boxes; others wrap sweets; men and women assemble toys.

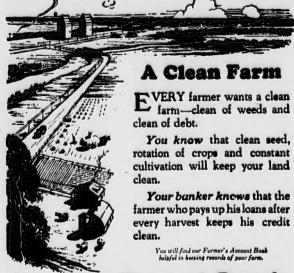

On the institute staff the principals of the massage school, the after-care department, the music department and the joint secretaries of the Greater London fund are all blind, and their blindness is not detrimental to their work.

For the Institute's wonderful Braille library nearly 800 new volumes have been prepared by hand by volunteer Braille writers during the year.

Pretty bather in apparent distress (to bald-headed man swimming to her rescue)—"Go away, you aren't the man!"

What is Home With a Sick Mother?

Peterboro, Ont.—"Following motherhood I developed a trouble that pulled me completely down in health. My nerves were bad, I was weak, had severe pains in my sides, my back ached and I was a nervous and physical wreck. But, after taking five bottles of Dr. Pierce's Favorite Prescription my nerves were in good condition and I fully regained my health and strength. I recommend the 'Favorite Prescription' to all women who suffer as I did."—Mrs. Maurice Tobin, 100 Steward St.

**A Clean Farm**

EVERY farmer wants a clean farm—clean of weeds and clean of debt.

You know that clean seed, rotation of crops and constant cultivation will keep your land clean.

Your banker knows that the farmer who pays up his loans after every harvest keeps his credit clean.

You'll find our Farmer's Almanac helpful in keeping record of your work.

The Call from now to Dec. 8, 1928 only \$1.

The woman who used to blush if seen wearing an evening hat before 3 p.m. has a daughter who goes to business in less than half an hour, though necessary for going to work.

Dynamite appeared Monday morning and with two unsuccessful blasts tried to blow mines out of business. When caught the law would be about the most severe for the guilty.

A. E. Jones just about dark on Friday evening he decided his fence needed a good repair. Next morning, in his building, were dynamite and right up side, but a number of finger prints gave evidence the boys did not have all the fun.

**Cattle Notice**

Mr. Michael and Mrs. Downey returned Sunday from attending the Canadian Stock Show in Toronto. Lethbridge last weekend. They report having spent a most interesting and enjoyable time.

Monday afternoon F. Owen's Ford touring was taken from next to his place of business while a crowd of people passed by. Later it was reported about thirteen miles north of town, but no further information is available.

The small battery house at Gleichen Hall Monday night was very well attended and a most enjoyable evening had by all.

Small bands will be sent to republish the risk. The supper served by the ladies of St. Andrew's Women's Auxiliary was an excellent one and much appreciated.

The road going north of town would be closed for a short time due to the heavy traffic hauling grain and motor cars going home or coming to town raised such much gravel that the motor vehicle drivers was necessary in order to wade in and out among the slower going vehicles.

**THRESHERMEN NOTICE**

We have a tank wagon truck as well as a one to haul drums of gas and are prepared to deliver Gas or Kerosene anywhere at any time either in drums or bulk. When in need of quick service give us a call.
